

Ass_6

Assignment 1

Ensure the script checks if a specific file (e.g., myfile.txt) exists in the current directory. If it exists, print "File exists", otherwise print "File not found".

#making a dummy file for search

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ touch myfile.txt
```

#making shell script in vi editor named checkFileCurrDirw

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ vi checkFileCurrDir.sh
```

#changing privileges to access the file

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ chmod 777 checkFileCurrDir.sh
```

#printing the file content on terminal with line numbers

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ nl checkFileCurrDir.sh
1      #!/bin/bash
```

```
2      filename="myfile.txt"
```

```
3      if [ -e "$filename" ]; then
```

```
4          echo "File exist"
```

```
5      else
```

```
6          echo "File not found"
```

```
7      fi
```

#running the script to check dummy file exists or not

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ ./checkFileCurrDir.sh
File exist
```

Assignment 2

Write a script that reads numbers from the user until they enter '0'. The script should also print whether each number is odd or even.

#installing vim to make easier edit in the file

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ sudo apt install vim
```

#making shell script in vim editor named checkOddEven

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ vim checkOddEven.sh
```

#changing privileges to access the file

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ chmod 777 checkOddEven.sh
```

#printing the file content on terminal with line numbers

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ nl checkOddEven.sh
1  #!/bin/bash
```

```
2  num=1
3  while [ "$num" -ne 0 ]
4  do
5      echo "Enter a number, "0" to stop the execution"
6      read num
7      if [ "$num" -eq 0 ]; then
8          break
9      else
10         if [ $(num % 2) -e 0 ]; then
11             echo "even"
12         else
13             echo "odd"
14         fi
15     fi
16 done
```

#running the script to check odd even

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ ./checkOddEven.sh
```

Enter a number, 0 to stop the execution

23

odd

Enter a number, 0 to stop the execution

1

odd

Enter a number, 0 to stop the execution

2

even

Enter a number, 0 to stop the execution

0

Assignment 3

Create a function that takes a filename as an argument and prints the number of lines in the file. Call this function from your script with different filenames.

#making shell script in vim editor named countLines

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ vim countLine.sh
```

#making a new dummy file names myfile2

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ touch myfile2.txt
```

#adding some content to dummy file myfile

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
Hello
This is Sayan Kumar Muhuri
This is myfile
^C
```

#adding some content to dummy file myfile2

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ cat >> myfile2.txt
Hello
This is Ashlesha Gaikwad
This is mmyfile
I am a certified Dietician
Thank you
Oh by the way this is myfile2
^C
```

#changing privileges to access the file

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
_Assignment$ chmod 777 countLine.sh
```

#printing the file content on terminal with line numbers

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
1  #!/bin/bash

2  countLine(){
3      local filename="$1"
4      if [ -e "$filename" ]; then
5          local count=0;
```

```

6         while IFS= read -r line;
7         do
8             ((count++))
9         done < "$filename"
10        echo "Number of lines are : $count"
11    else
12        exit 1
13    fi
14 }

```

```

15 countLine "myfile.txt"
16 countLine "myfile2.txt"

```

#running the script count number of lines for different files

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
```

```
_Assignment$ ./countLine.sh
```

```
Number of lines are : 3
```

```
Number of lines are : 6
```

Assignment 4

Write a script that creates a directory named TestDir and inside it, creates ten files named File1.txt, File2.txt, ... File10.txt. Each file should contain its filename as its content (e.g., File1.txt contains "File1.txt").

#making shell script in vim editor named makingDir.sh

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
```

```
_Assignment$ vim makingDir.sh
```

#changing privileges to access the file

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
```

```
_Assignment$ chmod 777 makingDir.sh
```

#printing the file content on terminal with line numbers

```
sayan-mridha@sayan-mridha-VirtualBox:~/Desktop/asCmd/Ass_6
```

```
_Assignment$ nl makingDir.sh
```

```

1  #!/bin/bash

2  makeFile(){
3      cd TestDir/
4          for((i=1;i<=10;i++))
5          do
6              filename="File$i.txt"
7              echo "$filename" > "$filename"

```

```

8         done
9     }

10    if [ -d "TestDir" ]; then
11        exit 1
12    else
13        mkdir TestDir
14        makeFile
15    fi
